RCC Launching Pre-Dental Hygiene Course to Support Student Success

Rogue Community College is expanding opportunities for students interested in dental careers with the launch of a new online course this fall and an upcoming session for its Dental Assisting and Dental Hygiene programs.

Beginning fall term, RCC will offer DH100 Pre-Dental Hygiene, an online course designed to introduce students to foundational concepts in dental hygiene. Students will learn basic dental terminology, how to access a patient's oral needs and how to plan appropriate dental hygiene treatments.

Completion of the course can strengthen applications to RCC's competitive dental programs. Students who complete DH100 will receive additional points on their program application.

Applications are now open through this Friday for the Fall 2025 cohort of RCC's Dental Assisting certificate program, a four-term program that runs fall through summer.

Attendance at an information session is required as part of the application process.

Details are available at "roguecc.edu/dental."
