Rogue Community College Dental Hygiene Students to Offer Free Screenings

Starting next week, Rogue Community College second-year dental hygiene students will begin accepting appointments for free dental screenings.

Appointments take place at the RCC Dental Hygiene Clinic at the Table Rock Campus Health Professions Center, located at 7731 Pacific Ave., White City.

Screenings include a limited radiographic series and periodontal evaluation to determine the type of hygiene services most beneficial for each patient. Screenings are performed by students under the supervision of licensed dental professionals.

The appointments provide valuable hands-on training for RCC dental hygiene students while offering the community access to high-quality, affordable, and preventive dental care.

To schedule an appointment, call (541) 955-7577 or email dentalinfo@roguecc.edu.
