HISTORIC HEADLINES

50 YEARS AGO

- **Sept. 29, 1975:** "Industrial Electric To Begin At RCC"

"A beginning course in the industrial electricity sequence will be offered at Rogue Community College fall term. The classes will be held Monday from 7 to 10 p.m. in the Santiam Building, Room 3, on the RCC campus. It starts next week.

"The course is designed for the millwright and power machinery operator, the beginning student or the practicing electrician, and for anyone else interested in a knowledge of the theory of electricity.

"The beginning class is part of a three-course sequence ..."
