Rogue Community College dental hygiene students offering free dental screenings

Grace Ritz

Sep 28, 2025

WHITE CITY, Ore. - Rogue Community College second-year dental hygiene students are offering free dental screenings starting the week of Sept. 29.

The screenings will be held at the RCC Dental Hygiene Clinic at the Table Rock Campus Health Professions Center in White City.

Patients will receive X-rays and a periodontal evaluation to determine the best hygiene services for their needs.

By offering free screenings, students get to experience hands on learning while opening access to affordable health care.

These services are performed by students under licensed dental professionals' supervision.

To schedule an appointment, call 541-955-7577 or email dentalinfo@roguecc.edu.
