WHITE CITY, Ore. - Rogue Community College is scheduling appointments for fall term at its Dental Hygiene Clinic, where RCC students can receive services for free and members of the public can access affordable preventive dental care and treatment.

Fall term runs Sept. 28 to Dec. 11. The clinic is located at RCC's Table Rock Campus in White City.

The Dental Hygiene Clinic gives dental hygiene and dental assisting students hands-on experience while providing accessible care to the community. Services are provided under the supervision of licensed dental professionals.

RCC students can receive clinic services at no charge. Community members can access a variety of low-cost services, including dental screenings and assessment appointments at no charge.

Full-mouth X-rays cost $30, sealants cost $5 per tooth and fluoride treatments cost $10. Free dental X-rays may also be available to qualified participants who have not had a full-mouth X-ray within the past three years.

"By opening our clinic to both students and the community, we're able to give our students valuable clinical experience while providing accessible dental care," said Carmen Mons, director of RCC Dental Programs. "We appreciate the community members who choose to receive care through our clinic and help our students build the skills they need for their careers."

Services are available by appointment. For more information or to schedule an appointment, call the RCC Dental Hygiene Clinic at 541-955-7577 or email dentalinfo@roguecc.edu.
