RCC Annual Report Highlights Growth, Student Success, Regional Impact

Rogue Community College has released its inaugural Annual Report to the Community, highlighting a year of record enrollment growth, improved student outcomes, expanded workforce programs and partnerships that are strengthening communities throughout Southern Oregon.

The 2025-26 report provides a look at RCC's impact on students and the region while sharing the college's priorities for the future. The report is available at roguecc.edu/about.

RCC served 10,247 students during 2025-26, including 7,851 credit students, as demand continued to grow for career and technical education, workforce training and transfer programs. The college has seen a 30% increase in combined graduation and transfer rates following investments in student success, and has expanded access to healthcare education in Josephine County with the renovation of the Redwood Campus E Building.

In April 2025, RCC became the only public college or university in Oregon to receive the Carnegie Foundation's Opportunity College and University designation.

RCC's partnerships with local school districts are creating opportunities for students to begin college before they graduate from high school through its Early College and dual enrollment partnerships with more than a dozen Southern Oregon high schools.

The RCC Foundation awarded $929,133 in scholarships to 320 students during 2025-26, with an average award of $3,000. The Foundation also made a $650,000 investment in RCC programs during the year. Along with plans for growth, the report highlights the launch of RCC's redesigned website and refreshed brand identity.
