JACKSON AND JOSEPHINE COUNTIES, Ore. – Rogue Community College's 2025-26 Annual Report was released Tuesday morning, revealing enrollment growth, improved student outcomes, and expansions to come.

According to the report, RCC saw an increase of 30% in combined graduation and transfer rates during the 2025-26 school year. The college also awarded 479 career and technical education certificates, compared with 424 the previous year.

The report also showcases RCC's partnerships with local school districts. Through Early College and dual enrollment partnerships with over a dozen Southern Oregon high schools, students and their families saved more than $3 million in tuition costs. Students in these programs earned 20,343 college credits and 42 associate degrees this year.

Future RCC expansions include new Transportation Technology Centers under construction at the Redwood and Table Rock campuses and simulation-based learning in nursing. RCC expects to have nearly 150 nursing students in fall 2026, more than twice the typical number.

The 2026 Annual Report to the Community is available at RCC's About page.
